AIR COOLER

**Maintenance :**

Periodic Maintenance helps to keep your Cooler in good condition. It is recommended to drain the unit and clean the woodwool pads every year. After a season of using the cooler, ensure to drain out the water from the tank completely

**Important :**

For Effective Operation of Your Cooler, Place The Cooler Near An Open Window For Intake of Fresh Air, Also Leave A Door /Window Open In the Opposite Side of The Room To Expel Air.
