# About Us

Hello, Friends My name is Yaqoob Ali, i am owner of Bharat electricals and himtech brand. We manufacture iron coolers, PVC coolers and fibre coolers. Our company was founded in 1988 by my late father, Mr. Munawar Ali, who established the business with a strong commitment to quality and craftsmanship. In 1994, my father handed over the business to me, and since then, I have continued to grow and strengthen the company. Since 2007, we have been assembling and selling plastic (PVC) coolers. We have 18 years of experience in assembling and selling PVC coolers and over 30 years of experience in the manufacturing and supply of iron coolers.

We play a major role in supplying coolers across all over India, serving more than 20 states and covering over 100 cities. Earlier, we were manufacturing coolers in North East Delhi, and we have now shifted our manufacturing unit to an industrial area in tronica city Currently, we manufacture approximately 50000 coolers per year. Our clients and customers are highly satisfied with the quality of our products.Over the past 30 years, we have earned the trust and support of our customers, and we look forward to many more successful years ahead with your continued trust and support.
